21) The Sri Uttaradi Matha at Hole Narasipur enjoys a large cash grant of Rs.526/- a month at Devadaya inam villages with an aggregate beriz of about Rs.6400/-

22) 2. Disputes arose between the Swamigalu and certain servants of the Matha in connection with the dismissal ~~of certain servants of the Matha~~ from certain offices, the latter claiming a hereditary right in the offices held by them and the matter was taken up before the courts for adjudication.

23) 3. The original and appellate courts found

NOTE—Contn. sheet.

in favour of the Matha's servants and upheld their claim to hold the offices hereditarily and to enjoy certain fixed emoluments. A brief resume of the various stages of the litigation is given at para 6 of my note dated 21st January 1915, an extract from which is hereto appended for ready reference.

4. The Swamigalu left the State in 1897 soon (41) after the decision of the Chief Court, but three years even before this, i.e. in 1894, when one of the decree-holders proceeded to attach the cash allowance payable to the Matha, the Government observed that the allowance was a Devadaya grant not liable to attachment by Civil Courts and directed that the entire monthly allowance should be held in deposit and not paid either to the Matha or to the Civil Courts.

(25) 5. The Inam villages, however, continued under the management of the Matha until 9th November 1904, when the attachment of the villages was ordered by Government who thereupon took up the management into their own hands. The reasons that led to this action of Government are briefly, (i) that the Swamigalu failed to show due consideration to the State by not conforming to the established practice of seeking the approval of His Highness in the matter of succession,

GPB—25 000—2 11 14

Serial No.

(ii) that the Swamigalu disregarded and rendered nugatory the judgments of the Chief Court relating to the restoration of certain dismissed servants of the Matha from hereditary offices held by them, by leaving the State and residing outside it, and (iii) that the Swamigalu allowed the affairs of the Matha to fall into great disorder in that many of the endowed lands had been alienated and the Matha buildings allowed to fall into utter disrepair.

26) 6. In 1905 the Uttaradi Swamy deputed a near relation of his to explain to the Dewan the circumstances under which his successor came to be appointed without previous approval of Government and to express to him his desire that the Mutt disputes should be settled. After a detailed consultation of the Swamy's delegate and the hereditary servants, a settlement was arrived at, which was embodied in Government Order No.3779-92½/ M.F.3-19/02 dated 9th March 1906. The Government accepted the explanation, recognized the succession of Sri Satya Gnana Theertha Sripadangalavaru to the Guruship, ordered the satisfaction of decretal claims from the income of the Mutt endowments within the State and advised the Swamigalu to restore the claimants to their respective offices.

27) 9. Information was being collected as regards

GPB—95 000—2 11 14

the amounts payable to the various persons under th above order, but before it could be acted upon, a review application was presented at the close of the year questioning on technical grounds the correctness of the order and disclaiming the liability of the Mutt to act up to the terms of the compromise, the old Swamy having died soon after and been succeeded by a new Swamy.

8. The case was argued at length with the help of legal representatives of standing, retained by the Matha and after long deliberation, Government Order No.1807-20/M.F.162-06-2 dated 25th January 1910 was passed. This order cancelled the portions of the order of 9th March 1906 which directed the enforcement of the decrees and payment of remuneration for periods subsequent to the decrees. It was, however, considered that there were cogent reasons why the land inams and cash grant endowed to the Matha should not be restored. The reasons themselves were not given at length but mention was made of the fact that the disputes between the Matha and its former servants still remaining unsettled, the Matha may yet be bound to pay large sums to the decree-holders and this would be a diversion of the endowment, offering sufficient justification for its attachment and management by Government.

9. Thus the payment of the cash grant to the Matha came to be with-held from 1894 while the land endowments were taken under Government

management in 1904. The annual income from these sources aggregate Rs.14,556/- while the fixed expenditure for the maintenance of various

a great deal of work to do in this direction, the most notable being the construction of a suitable building at Bangalore for the use of the Matha, about which correspondence has been going on for the last 3 or 4 years.

10. After the decision of Government in 1910, subventions from the accumulated funds in the hands of Government were granted from time to time,

and the total sum represents the surplus of about five years. There is still a surplus of about Rs.63,000/- in the hands of Government of which Rs.45,000/- has been invested in Mysore 4% loan papers.

11. The present Swamigalu succeeded to the

GPB—95 000—2 11 14

High Priestship in March 1912 and it is noteworthy that even in this case the previous approval of Government to his succession has not been obtained. In the circumstance of the case, however, recognition was accorded and the Swamigalu now seeks for the restoration to his management of the endowments to the Matha.

12. The question now for consideration is whether the reasons which influenced the Government to assume the management in 1904 ~~now~~ ~~be~~ have ceased to exist. indicated at para 5 above three reasons were mentioned in the order of 1904 for the attachment of the Matha endowments. As regards the first of these there is nothing to show that the Matha has since come into line. There have been two successions since and in neither of them has the previous approval of Government been sought for. The second relates to the defiance of the decrees of the highest Court in the land. Even now the decrees of the Chief Court remain unsatisfied and though the decrees, some at least if not all, may not be executable owing to lapse of time, yet the fact remains that the decree holders were denied the reliefs due to them mainly owing to the ~~certain~~ action of the Matha apparently undertaken of set purpose.

13. I am personally given to understand by Mr. H. Narasinga Rao, Advocate, a disciple of the Matha and its legal representative in certain cases now pending before Government, that negotiations

NOTE—Contn. sheet

GPB—25 000—2 11 14

Serial No.

are now going on between the above decree holders and the Swamigalu and an agreement has been almost come to, whereby the Swamigalu proposes to make lump sum payments to the former who are to relinquish their right to the offices in question. If these negotiations mature into a definite understanding it would no doubt be to some extent satisfactory that a measure of relief would have been extended to a class of persons who have sufferred much in the past but it will be no reparation to the injury inflicted to the cause of legal justice. It ill also be a matter for consideration whether the Government would view such transactions as correct or the expenditure incurred therefor, legitimate. In their order of 25th January 1910, the Government seemed to consider that such an expenditure would be a diversion of the endowments offering sufficient justification for ~~its~~ their attachment.

14. It does not seem necessary to offer any remarks on the third reason which relate to the mismanagement of a former Swamigalu. For some weeks past the Swamigalu has been living at Bangalore and his capacity for prudent administration of the Mutt Funds is by this time probably well known. I need only remark that repairs of some of the Mutt buildings still remain to be undertaken.

15. While the above circumstances would seem to point to the conclusion that it is inexpedie

NOTE—Contn. sheet.

GPB—25 000—2 11 14

Serial No.

just yet to hand over the endowments and the accumulated surplus unconditionally to the Swamigalu, yet none of them appear to ~~p~~ furnish a sufficiently strong argument for Government to decline to restore the management. It is a matter for consideration whether this favourable opportunity may not be availed of by Government to strengthen its position as regards its future dealings with this somewhat refractory Matha. In the past one of the Swamigalu expressly protested against the applicability of the Notification of 1892 as regards the successions ~~of~~ in the Matha and since then whether intentionally or otherwise, the previous approval of Government has not actually been obtained in the case of succeeding Swamiyes. It may be an advantage to secure a definite undertaking on the part of the Matha in this direction. It is also worth noting that the Matha has been absent from Mysore for the last 18 years and though the absence of the Swamigalu for definite periods o pilgrimage or visitation tour may be necessary, it would be defeating the purpose of Government in having made such liberal grants if the Matha should stay away from the State for protracted periods.

36) 16. During the period the endowments were under Government management scales of expenditure were sanctioned for carrying on worship and other services at the Matha buildings at Seringapatam, Mysore and Hole Narasipur, and the Government may be justified in demanding that these scales should

GPB—25,000—2-11 14

Serial No.

be carried out in future without material curtailment. The only question that remains to be considered is whether the accumulated surplus now in hand should be made over in toto to the Swamigalu to spend as he pleases or whether the funds may not be earmarked for specific purposes. Practically much the largest portion represent the savings from the cash grant, the payment of which was stopped in 1894 and from this source there was an accumulated saving of Rs.37,000/- in 1904. It may also be a debateable point whether the Matha is entitled to the payment of cash grant for periods during which the presiding Swamigalu failed to obtain recognition. A stoppage of grant automatically with the failure to obtain recognition will be a useful weapon in the hands of Government. There is however no explicit precedent in this direction, so far as I am aware and perhaps this course is not indicated by the nature of the grant itself.

56) 1) The decrees obtained by certain mutha servants against the mutha have all been satisfied out of court by giving the decree holders lump sums as the effect of a compromise agreed between the parties & the Swamiji alone, and some release deeds have been produced in certain courts, and certain others will be produced

in near future - so there is no more trouble in regard to these decrees.

57) 2) Succession to the matha has to be decided upon on a consideration of the nominee's eligibility for the Sita by his deep erudition, purity of heed, spirit of renunciation, good birth, and other qualifications; and nobody has the scope of knowing these to the extent to which the matha people do in view of their personal knowledge & experience in these matters. Further as the matha own properties (lands, cash grants, annuities &c. in Hyderabad, Travancore, Madras, Calcutta Bombay, Kolhapur, Cochin, Sangli and the States, it would be impossible to obtain recognition individually from each of these Govts for the succession to the Sita. For these & other reasons, the long established practice of appointing a successor to the matha and then reporting the matter to the Govt for the information of His Highness may be continued.

58) 3) The services in the matha at Mysore will be continued as heretofore out of the Scale of Expenditure in the matha at Seringapatam &c.

5) 4) The amount at the credit of the mattha is required for satisfying the decrees obtained by the mattha servants and for the construction of a mattha at Bangalore. As these have to be attended to at once the money at the credit of the mattha as well as the mattha's endowments including the Sarkar grant may be handed over to him

(a) 5) As a mattha has to be constructed in Bangalore, it is unnecessary at present to build one at Ramanathapura at a cost of about 5000 Rs, and the order in this matter may be kept in abeyance.

Raised by the Swamigalu is with reference to the obtaining of the previous approval of Govt: before nominating a successor to the Matha or whether or not. the Matha should be held amenable to the rules of 1892

(64) The Swamigalu consider that it is sufficient if intimation of such succession is given to Govt: after the event and address their arguments for his recognition

(65) 1) That as succession is to be decided upon the personal qualifications of the Candidate such as birth, learning, conduct etc, the presiding Swamigalu is alone competent to judge.

(66) 2) That as the Matha holds Inams in Villages from various Native States and Zamindaries, it is impracticable to obtain previous approval from all those Zamindaris and States

(67) 3) That the established practice in the Matha has been only to intimate the succession without seeking for previous approval.

(68) There is nothing new in the arguments advanced. It may be stated

in reply that it was never the intention of Govt to actually choose the successors but it was sought to ensure the appointment of those highly eligible candidates after providing Swamijees, by withholding recognition to undesirable selections. This power is not one for arbitrary exercise but has to be decided with the help of x the enlightened opinion of the community and the known qualifications of the candidate.

6) The order of 4th Dec 1892 premises that there is actually an established custom — Contrary to what is stated by Swamijee — that the Maharaja's previous consent to nomination of Successors should be obtained for by religious Matts within the State. At para 2 of the Govt order No 1621-34 dated 4th Nov 1904 an instance is quoted where an apology was tendered in 1864 to the late Maharaja for an omission to obtain previous permission in the case of a former Succession in this Matt.

7) As regards the argument of impracticability arising to ascertain of grants for various States, it is not known that these States

has exercised or ever now claim to exercise the right of previous consultation. It is noticeable that some of the territories mentioned are not Sovereign States, while a few others are mere Zamindaris.

71) It may even be considered that as the Matha has its headquarters at Hole Narsipur within the Mysore State this State may be said to stand in a special relationship to the Matha, as distinguished from the other States. Further the States of Mysore as the Premier Hindu State, its historical antecedents and the comparatively large resources drawn by the Matha from it, should give Mysore a privileged position apart from what is enjoyed by the remaining localities mentioned.

72) In this connection it may be noted that in another ~~connection~~ File the 1st member was pleased to express grave doubts about the wisdom of 1892. In ordering upon the file His Highness was pleased to express that the order of 1892 may be discussed separately after Dewan and Councillors are submitted for orders. ~~At that stage~~ Some further discussion ensued and the 1st member noted that the order of ~~has been taken in the meeting~~ 1892 need not be interfered with as it gives discretion to Govt as to the degree to which it can be given effect to.

73) One other point raised by the Swamijees requiring orders, is the request to keep in abeyance the Sanctioned estimate for the repairs of the Matt building at Ramnathpuram. The matter has been pending now for 7 years and so far back as 1908 an estimate for Rs 3305 was Sanctioned. Owing to representations from the local disciples of the Matha, alterations in the estimates were made more than once and finally an estimate for Rs 4980 was Sanctioned on 3rd April 1915. It is not known whether any progress has been made in the work. Even if the Contractor has only collected materials some compensation will be due to him. Under these circumstances it is for the Committee to consider whether it would not after all be better to put through the repairs which have so long been pending execution and created expectation among the local disciples.

~~each~~ now Compounder and the balance towards the construction of Matha building at Bangalore and the establishment of a Patasala. The latter proposals are quite praiseworthy but it is doubtful how far the former may be considered to be quite a legitimate use of the funds. At para 7 of G.O No 1807-20 - Mug & 162-06-2 dated 25th June 1910 it was thought that 'in according to the decrees of Civil Courts, it is held that the Matt is bound to pay such large sums to the decree-holders without their rendering any service to the Matt, it will be but a division of the endowments as by itself may fairly be considered as sufficient justification for attaching the endowments and keeping them under the management of Government'

757 The Swamiji also proposes to retrench the expenses now incurred at Seringapatam and Hosakere given and utilize the savings in the maintenance of the new Matha to be constructed at Bangalore. There is much to recommend the idea and I

Submitted to His Highness.

93 The accompanying papers relate to a request preferred by the present Swamigalu of the Sri Uttaradi Matha for the restoration to him of the Mutt properties now under the attachment and management of Government, together with the annual cash grant and the savings accumulated and held in deposit.

94 2. Owing to disputes between the Swamigalu and certain Mutt servants and the civil litigation that ensued, the Government considered in 1894 that the cash grant of Rs.526/- a month payable to the Matha was not open to attachment by Civil Courts and ordered that the amount should be held in deposit by Government and allowed to accumulate. Subsequently a portion of the cash grant was utilized for the upkeep of the Matha and Sanskrit Patasala at Hole Narasipur and subventions from the accumulated surplus at the hands of Government were also from time to time made to the Swamigalu to meet special demands.

95 3. Again in 1904 the Inam villages endowed to the Matha were for reasons mentioned, attached and brought under Government management. Briefly these were:-

(1) That the Swamigalu failed to conform to the rules of 1892 enjoining that the previous approval of His Highness to successions in the Matha should be obtained.

(2) That the Swamigalu disregarded and rendered nugatory the judgments of the Chief Court relating to the restoration to their offices of certain dismissed servants of the Matha.

(3) That the Swamigalu had allowed the alienation of some of the endowment lands and the deterioration of the Mutt buildings.

96) 4. In 1906 on an explanation furnished by the then Swamigalu a settlement was arrived at and the Government recognized the succession of Sri Satya Gnana Theertha Sri Padangalavaru and sanctioned the satisfaction of the decretal claims outstanding against the Mutt.

97) 5. This order was again sought to be reviewed by the Swamigalu and in 1910 the Government revised their previous order and cancelled the payment of the decretal claims from the Mutt income but considered that there were cogent reasons why the land Inam and cash grant endowed to the Matha should not be restored to the Matha.

98) 6. The present Swamigalu Satya Dyana Theertha Sri Padangalavaru succeeded to the Pita in March 1912 and after an extensive pilgrimage in Northern India, is now on a tour in the State. On the 30th of January last the Swamigalu addressed Government a Srimukha requesting the restoration to him of the cash grant and land inams endowed to the Matha. The First Member considered that this opportunity may with advantage be availed of, to settle the outstanding questions and a Vignapanapatrika framed so as to elicit the views of the Swamigalu on the various points, was forwarded to him with my approval.

99) 7. To this communication the Swamigalu replied in his Srimukha dated 6th August, wherein he stated that he was taking steps to settle the claims of the Mutt servants holding decrees against the Matha, that it was under consideration to construct at Bangalore

a building for the use of the Matha and inaugurate a Patasala therein, that a portion of the amount now spent at Hole Narsipur and Seringapatam was proposed to be diverted for the maintenance of the new Bangalore Matha and Patasala and that the accumulated surplus to be made over to the Matha will be spent partly towards the construction of the new building at Bangalore and partly towards the settlement of decretal claims. It was, however, contended by the Swamigalu that it was against established practice to obtain the previous approval of His Highness in the case of - - successions to the Pita.

(10e) 8. The reply of the Swamigalu was examined and the First Member was good enough to prepare the draft of a Vignapanapatrika explaining the scope and intention of the rules of 1892 and expressing the view that though the Government still adhered to the propriety of the rules in question, in the case of the Swamigalu himself whose succession has already been recognized by Government, there was no objection to the restoration of the Mutt properties. Some further information has also been called for relating to the extent to which it is proposed to utilize the accumulated surplus for the settlement of decretal claims.

(10f) 9. Owing to the importance of the subject, the draft Vignapanapatrika was considered in Council and approved. It was my intention to submit the same for the approval of His Highness, but owing to a mistake in the Secretariat the communication was signed and issued to the Swamigalu. I submit the papers for favour of orders. If the communication already issued may stand, the file may kindly be returned with His Highness's confirmation.

The Swamigals proposes to meet the whole of the Compromise amount from the balance in hand at the Credit of the Matha. It is a matter for consideration whether this can be allowed in the Considering the previous expressed views of Govt. Seeing however that the compromises are on the whole satisfactory it may perhaps be a desired concession if a money of the sort is permitted to be paid out of the funds.

(13) It is understood that about Rs 10,000 is at the Credit of the Matha in Cash and Rs 45,000 invested in 4% Govt Loan papers. The former may immediately be made available and the Committee may be requested to sell Loan papers to the extent of about Rs 7000. In this connection it may be stated that Rs 15,000 was made available to the Matha in March last and hence the depletion of the Cash balance

(14) The Compromises are not unfavourable to the Matha

and may be accepted as fair to the other parties also. They are probably the best way out of an impasse created by decrees of Courts & a long course of opposition to their execution.

(15) The Swamis may be informed that half the amount of the accumulated income will be allowed to be paid ~~to the~~ towards the discharge of these compromise claims. What is the meaning of Jasdan being not available? ~~How~~ Was the whole of it due for a year credited ~~to~~ in advance to the Mathia? If so, was it not irregular?

20/3/16

24/3/16 The practice in the Comptroller's office is to credit the annual Jagir at the beginning of the year to the institutions who draw on monthly bills. There has been nothing irregular in the credit but the mistake appears to have been in including this amount when Computing the amount at the credit of the Mathia, on the basis of which Rs 30 000 was paid to the Mathia.

SUBJECT.

386-11-3 dated 25th March 1912 recognizing the succession to the Sri Uttaradi Matha of Vedamurti Seturamacharya under the titular name of Sri Satyadhayana Tirtha Swamigalavaru.

3. Srimukha No.1995 dated 30th January 1915 from the Swamigalavaru of the Sri Uttaradi Matha requesting that the land inams and the cash grant endowed to the Matha may be restored to his possession.

4. Correspondence ending with Srimukha No.1039 dated 13th September 1915 received from the Swamigalavaru stating that the claims of decree holders against the Matha have been compromised for a cash payment of Rs.34,000/- and satisfaction has been entered as regards six of the decree holders.

Order thereon: No. 1129-44 & 11-11-15
Ameen 349-14

The Sri Uttaradi Matha at Hole Narasipur enjoys a cash grant of Rs.526/- a month and has also been endowed with Devadaya inams having an aggregate beriz of Rs.6,400/-.

Owing to disputes between the Swamigalu

GENERAL AND REVENUE SECRETARIAT.

(*Continuation sheet draft form.*)

Swamigalu and certain Matha servants and the Civil litigation that ensued, the Government considered in 1894 that the cash grant of Rs.526/- a month payable to the Matha was not open to attachment by Civil Courts and ordered that the amount should be held in deposit by Government and allowed to accumulate. Subsequently, a portion of the cash grant was utilized for the up-keep of the Matha and the Pâtasala at Hole Narasipur and subventions from the accumulated surplus at the hands of Government where also from time to to time made to the Swamigalu to meet special demands.

3. Again in 1904 the inam villages endowed to the Matha were for reasons mentioned attached and brought under Government management. Briefly these are :-

(1) That the Swamigalu failed to conform to the rules of 1892 enjoining that the previous approval of His Highness the Maharaja to successi

in the Matha should be obtained.

(2) That the Swamigalu disregarded and rendered nugatory the judgments of the Chief Court relating to the restoration to their offices of certain dismissed servants of the Matha.

(3) That the Swamigalu had allowed the alienation of some of the endowment lands and the deterioration of the Matha buildings.

4. In 1906 on an explanation furnished by the then Swamigalu a settlement was arrived at and the Government recognized the succession of Sri Satya Gnana Tirtha Sripadangalavaru and sanctioned the payment of certain sums towards the satisfaction of the decretal claims outstanding against the Matha.

5. A review of this order was prayed for by the Swamigalu and in 1910 the Government in modification of their previous order cancelled the payment of the decretal claims from the Matha income but considered that there were cogent

reasons why the land inam and cash grant endowed to the Matha should not be restored to the Matha.

6. Early in 1912 Sri Satya ~~Gnana~~ Gnana Tirtha Swamigalavaru passed away and Vedamurti Seturamacharya succeeded him under the titular name of Sri Satya Dyana Tirtha Swamigalavaru and the succession was recognized in the order of 25th March 1912. The Swamigalu after an extensive tour throughout India is now on a visit to the State.

7. On the 30th of January 1915 the Swamigalu addressed to Government the first of the Srimukhas read above requesting the restoration to him of the cash grant and land inams endowed to the Matha. The Swamigalu further states that a settlement has been arrived at with the decree holders by which their claims against the Matha have been compromised at an aggregate cost of Rs.34,000/- that actually the claims of six out of the 12 decree

holders have been satisfied and a sum of Rs.15,344/- paid to them and that the remaining claims are in course of satisfaction.

8. The compromises are not unfavourable to the Matha and may be accepted as ~~fair~~ fair to the other parties also. They are the best way out of an impasse created by decrees of Courts and a long course of opposition to their execution.

9. Under the circumstances Government are pleased to approve of the settlement now arrived at, and in modification of their decision conveyed in the order read above, to direct that half the amount of the accumulated income now in the hands of Government be allowed to be paid towards the discharge of these claims. The Comptroller is requested to pay over immediately to the Matha the cash available and to arrange to transfer duly endorsed Government paper sufficient to make up the balance or at the option of the Swamigalu to sell and pay over the proceeds. The

balance of the securities will be retained by Government and made over whenever required for any such purpose as may be approved by Government as being of general use to the Matha.

10. Now that the succession of the Swamigalu has already been recognized and the decrees against the Matha satisfactorily settled, Government ~~are pleased to~~ consider that there is no reason why the attachment of the Matha properties should not be withdrawn. But before handing over actual possession, Government deem it necessary that the Swamigalu should enter into an agreement that he will so take possession of the Matha estates with all claims and liabilities appertaining thereto as they stand at the time of transfer and will have no claims on Government thereafter and that he will not alter any permanent arrangements for the carrying on of the Matha affairs as laid down in the orders of Government noted in the margin.
